OUR STORY:

MIG GOV, LLC is an SBA Certified 8(a), HUBZone Certified, Service-Disabled Veteran Owned Small Business General Contractor specializing in turn-key project management services of design and construction that reach beyond industry standards. Our vast experience in budgeting, design, planning, engineering, and building allows MIG GOV to be a best value industry leader for both Commercial and Government contracting. Our business model is based on client centric quality assurance which makes the client's needs our number one priority. Additionally, MIG GOV possesses significant bonding capacity for low risk contracting which allows us to perform diverse construction projects ranging from Design-Build New Facility Construction and Design-Bid-Build Historical Building Renovation; from Infrastructure Improvements to Waterfront/Pier projects of all types, and beyond. Our team guarantees a commitment to high quality, integrity, and customer satisfaction.

Finally, our 75+ years of combined construction experience and diverse, talented staff bring a unique array of knowledge and creativity to proactively mitigate risks and efficiently execute any project contemplated for a successful project experience.

COMPANY HISTORY:

MIG GOV was founded by Jose Gutierrez in 2012 after a 15-year Naval career serving with the elite counterterrorism and special forces. Unfortunately, his career was cut short due to injuries sustained on the battlefield in Afghanistan. After being medically retired from the Navy, Mr. Gutierrez returned to his construction roots and established MIG GOV and is proud to say that his service to our great country continues today, one successful project at a time.
